

BOARD CERTIFIED PLASTIC SURGEON

ROBERT MORIN, M.D.

CRANIOFACIAL AND PEDIATRIC PLASTIC SURGEON

ABOUT DR. MORIN

Dr. Robert Morin is a board certified plastic surgeon with offices on Central Park South in Manhattan, and in Hackensack, New Jersey. He performs a wide range of cosmetic and reconstructive procedures. Dr. Morin has a special interest in rhinoplasty and complex facial, nose and ear reconstruction.

Dr. Morin's accredited fellowship in craniofacial surgery, pediatric plastic surgery and facial cosmetic surgery has given him the ability to perform complex surgical procedures on the faces of both adults and children.

He applies these highly specialized skills while reconstructing the faces of children with cleft lips and palates, cleft nasal deformities and congenital ear deformities. Dr. Morin donates one week of his time each year, and all of these skills, to children in developing countries throughout the world.

In the United States, Dr. Morin works closely with neurosurgeons, surgical oncologists, dermatologists and neonatologists in order to restore proper form and function to patients with traumatic injuries, congenital abnormalities and cancer.

Dr. Morin is also highly trained in cosmetic plastic surgery. Rhinoplasty, breast augmentation, blepharoplasty, rhytidectomy and abdominoplasty are among the procedures Dr. Morin commonly performs. Dr. Morin's passion towards nose reconstruction has resulted in a thorough understanding of the nose and he currently teaches cosmetic surgery fellows how to perform rhinoplasty surgery at several New York City area hospitals.

Dr. Morin's goal is to produce aesthetically pleasing and natural appearing results. Dr. Morin believes in using fundamentally sound surgical procedures that have stood the test of time.

Rhinoplasty

BOARD CERTIFICATION

As the American Board of Medical Specialties logo states, "Certification Matters." Dr. Robert Morin is certified by the American Board of Plastic Surgery. The American Board of Plastic Surgery is the only board that certifies that plastic surgeons have met all of the strict requirements necessary to call themselves board certified plastic surgeons in the United States. Dr. Morin believes it is extremely important to make sure that your surgeon is certified by the appropriate board for their specific field. It is therefore wise to not only ask if your surgeon is board certified but also to ask by what board.

Membership in field specific societies is important as well. In plastic surgery, the American Society of Plastic Surgeons is the largest and most influential society. Dr. Morin is an active member of this society.

The logos of both the American Board of Plastic Surgery and the American Society of Plastic Surgeons can be seen below. Dr. Morin encourages you to look for these logos when selecting a plastic surgeon.
